

I have become very concerned over Sinclair Broadcasting's decision to air an anti-Kerry documentary called "Stolen Honor;" though I am not sure that it is a documentary in the truest sense by delivering factual unbiased information to the public. This documentary is to be aired days before the election and is a partisan abuse of Sinclair's position as a broadcaster on public airwaves. I believe that this is not a good example of democracy and seems to be calculated in timing to affect the public's decision about the election. This is an unfair use of public television.

Thank you for your time. I hope that my e-mail alongs with others will help stop misuse of public airways.
